# Global Estonian Program globalestonian.com sõbrad

A 2023 Global Estonian survey conducted among Estonians living abroad revealed that **one in three** respondents is prepared to contribute to the portal that connects Estonians worldwide, and to engage with the communication channels of Estonians in their host country.

As such, we invite **Estonians all over world** to join us for a new training and partner program "**globalestonian.com sõbrad**," with the first phase running until the end of 2024.
